CAREER OBJECTIVE

A Computer Science undergraduate aspiring to start a career in software development. Skilled in programming, web development, and databases using React, Python, and MySQL, looking to contribute technical skills and problem-solving abilities to innovative software solutions.

EDUCATION

Bhoj Reddy Engineering College for Women B.Tech Computer Science and Engineering CGPA: 8.7	Hyderabad, Telangana 2022 - 2026
FIITJEE Junior College Intermediate (MPC) Marks: 862 / 1000 (86.2 %)	Vijayawada, Andhra Pradesh 2020 - 2022
FIITJEE (EM) High School SSC Marks: 581 / 600 (96.8 %)	Vijayawada, Andhra Pradesh 2019 - 2020

SKILLS SUMMARY

- **Programming Languages:** Java, C, Python
- **Frontend Development:** HTML, CSS, JavaScript, React.js
- **Database Management:** MySQL
- **Version Control:** Git, GitHub
- **Tools:** MS Word, MS Excel, MS PowerPoint, Tableau

EXPERIENCE

- **AI Annotation Intern** | Student Tribe | Hybrid | Apr 2025 – Aug 2025
 - Trained AI models to enhance capabilities in generating AI-powered videos.
 - Worked in a hybrid model (2 days office, rest remote), ensuring effective collaboration.
 - Delivered tasks with professionalism and dedication under the Growth Executive.

PROJECTS

- **SustainaScan** [GitHub Link](#)
 - Built a sustainable shopping platform using React, Django, Tailwind CSS, and MySQL.
 - Implemented OCR-based image scanning using Tesseract to extract ingredients and calculate carbon footprint.
 - Explored basic LLM concepts for improving eco-friendly product recommendation workflows.
 - Collaborated in a group project, contributing to development, problem-solving, and coordination.
- **Checkify** [GitHub Link](#)
 - Developed a web-based event management system with real-time countdown timers and event scheduling.
 - Integrated user authentication and MySQL database for efficient event tracking.
 - Collaborated in a 4-member team, practising collaboration and time management under deadlines.
- **MediQwik** [GitHub Link](#)
 - Designed and developed a full-stack web app using HTML, CSS, JavaScript, and MySQL.
 - Enabled appointment scheduling, secure data handling, and doctor-patient management.

ACHIEVEMENTS

- **First Prize in DevSprint Event** | BRECW (March 2025)
 - Won first place in the DevSprint event for building a creative UI and adding functionality under time constraints.
 - It was a great opportunity to collaborate, think on my feet, and apply my full-stack skills in a fast-paced environment.
- **Merit Awards for Academic Excellence**
 - Received multiple merit awards in college for consistently strong academic performance, reflecting dedication, hard work, and a commitment to learning.

CERTIFICATIONS

- **Full Stack Development Certification from EduVetha**
Completed a full-stack development course covering front-end and back-end technologies, strengthening practical skills through hands-on projects.
- **Web Development internship at VaultofCodes**
Completed a one-month Web Development internship, gaining practical exposure to frontend development and responsive web design.
